BUTTERFLY TRAINING

Electrical Wiring Interconnect System (EWIS) Target Group 6 – Initial

Electrical Wiring Interconnect System (EWIS) Target Group 6 – Initial

EWIS6-I-EN

Description

Electrical Wiring Interconnect System (EWIS) Target Group 6 – Initial

Aviation Accident Investigators have specifically cited the need for improved training of personnel to ensure adequate recognition and repair of potentially unsafe aircraft wiring conditions. This Online training will greatly enhance the awareness with regard to the importance of EWIS safety as concerns the overall safe operation of aeroplanes.

Duration: 2 hours

Program:
A – GENERAL ELECTRICAL WIRING INTERCONNECTION SYSTEM PRACTICES
1. Safety practices
C – INSPECTION
16. Wiring system damage
D – HOUSEKEEPING
17. Aeroplane external contamination sources
18. Aeroplane internal contamination sources
19. Other contamination sources
E – WIRE
27. Typical damage and areas found (aeroplane specific)

Target Group: The training program is aimed at the personnel who are not directly involved in the maintenance and inspection of EWIS, identified as (i.a.w. AMC 20-22): Target group 6 - Other Service Staff with Duties in Proximity to Electrical Wiring Interconnection Systems

Validity: 2 years

Exam conditions

MCQ

Certification
